RELEVANT EXPERIENCE

9 weeks Full-stack Coding School
LE WAGON   07-09 /2020

Built the skills for a well-rounded web developer in an intense period of 9-weeks. In a team of 4 designed & delivered in production a clone of Airbnb in a week (https://my-fantasia-mvp.herokuapp.com) and in 2 weeks a Rails API + React front-end MVP (www.myedge.io).

Team coordinator(contract)
SPIE BELGIUM   03-10 /2019

Lead a team of six technicians in the passenger-train Retrofit unit and ensured delivery deadlines of the 4 test train units for SNCB. Trained, organized, and offered technical guidance that led to a result-driven team and no delays.

Software tester(full-time)
UNICREDIT S.C.P.A   11/2018 - 02/2019

Tested and monitored the new-developed platform on the production servers by constantly checking the functionality of the systems and translating customer complaints into developer-friendly bug reports.

QA Analyst(full-time)
CONTINENTAL AG   10/2016 - 11/2018

Handled VW Group customer's warranty disputes in the Quality Key Account team, tracked complaint resolution, and ensured that the complaints are solved in a timely manner by developing trust relationships and continuously proposing solutions that met the objectives of both customers and stakeholders.

Assistant Web Developer (internship)
PF. INTERIORES FLEXIBLES   05-09 /2014

Optimized the website assets such as photos and a CRM plugin that resulted in an increase in the website's performance and a real overview of the customer retention rate.
